

# LOST PET RECOVERY STEPS

- ❑ **Update your pet profile** on PetHub.com and **verify** all your contact info is current.
- ❑ **Call the microchip provider** to verify they have current info on your pet.
- ❑ **Create lost pet posters.** You can instantly create a lost pet poster from your pet's profile on PetHub.
- ❑ **Share on social media**, and **ask** your friends and family to share it. From PetHub, you can directly share your lost pet report on your social media pages.
- ❑ **Inform your local shelters** and veterinary offices about your missing pet so they can keep an eye out for them. PetHub offers a shelter alert service that allows you to send an alert to your local shelters and veterinary offices\*.
- ❑ **Mobilize your network** of family and friends. If your pet has only been missing for a short period of time, going out on foot is the best method as opposed to a vehicle.
- ❑ **Report your animal missing** on [www.helpinglostpets.com](http://www.helpinglostpets.com).
- ❑ **Leave clothes** near your door. Hopefully your pet can catch your scent if they are nearby.
- ❑ **Beware of scammers.** If they cannot describe your pet beyond what is on the flyer or they don't want to show an image of the pet, steer clear.
- ❑ **Search until found.** Keep **visiting** shelters, keep **asking** around the neighborhoods, and keep **posting** flyers. There are pets out there that have been reunited with their owners months after they went missing. Don't give up and your pet will thank you!

\*These services are only available to PetHub premium pack members. Learn more about premium services at [PetHub.com/pricing](http://PetHub.com/pricing).
